MAIN IDEA

Your best and most creative business ideas will never come in the hustle and bustle of the modern workplace. Nor will they come by listening to the million different opinions and voices which populate social media. To really come up with innovative and creative ideas, you need to answer the call to stillness.

STILLNESS

So how do you create the kind of stillness which will help you come up with your best ideas and insights? To uncover and draw on the power of this creative force, there are three domains that you have to align:

In each of these domains, you have to reduce the disturbances and any obstacles which make stillness impossible. Once you cease to be at war with the external world and your own internal world, you can then tap into the awe-inspiring power of stillness. This is what all the world's greatest leaders, thinkers, athletes, and visionaries have always done.

"To hold the mind still is an enormous discipline, one which must be faced with the greatest commitment of your life."

– Garry Shandling

"The pressing question of our time is: If the quiet moments are the best moments, and if so many wise, virtuous people have sung their praises, why are they so rare? Stillness is the key to, well, just about everything. To being a better parent, a better artist, a better investor, a better athlete, a better scientist, a better human being. To unlocking all that we are capable of in this life."

– Ryan Holiday

1. The Mind Pages 2 - 3

To achieve stillness, you have to stop worrying about all the various personal and professional crises you're facing. We all have them all the time. Instead, you have to apply some clear thinking, and look for a way to tap into calmness and stillness. Only then can you think clearly, apply wisdom, and exercise the patience that's required to get clarity about what really matters.

- 1 BE FULLY PRESENT
- 2 ELIMINATE PRECONCEPTIONS
- 3 TAKE SOME TIME
- 4 SIT QUIETLY AND REFLECT
- 5 REJECT DISTRACTIONS
- 6 SEEK WISDOM
- 7 BECOME CONFIDENT, AVOID EGO

2. The Spirit Pages 4 - 5

The second step in tapping into the power of stillness is to engage your heart and soul. Serenity only comes when you train and control the forces which reside deep inside you. There's no point trying to be rational at work if your personal life is a train wreck. You have to make sure there is consistency and alignment between stillness and how you live your life.

- 1 HAVE A STRONG MORAL COMPASS
- 2 COME TO TERMS WITH WOUNDS
- 3 AVOID HARMFUL DESIRES
- 4 AVOID THE PURSUIT OF MORE
- 5 BATHE IN NATURE'S BEAUTY
- 6 BELIEVE IN A HIGHER POWER
- 7 PRACTICE APPRECIATION

3. The Body Pages 6 - 8

The third and final domain in the journey towards stillness is how you treat your physical body. What you put in, the routine and schedule you keep, and how you go about finding leisure will all impact directly on your ability to find stillness. Make sure you cultivate the right traits and make the effort to take care of your physical state. If you don't do that, nothing else will matter.

- 1 BE PREPARED TO SAY NO
- 2 TAKE LOTS OF WALKS
- 3 BUILD GREAT ROUTINES
- 4 GET RID OF STUFF
- 5 SEEK OUT SOLITUDE
- 6 BE HUMAN
- 7 FIND A GOOD HOBBY
- 8 TAP INTO STILLNESS
