**MAIN IDEA**

The 1-Page Marketing Plan sets out the fastest and most direct path to the money for your business. It describes how you plan to grow through marketing.

**1-PAGE MARKETING PLAN**

The marketing process is nothing more or less than the journey you want to guide your ideal target market through. It always has three distinct phases:

<b>Prospects</b>	<p><b>The "Prospects Phase"</b> where you attract good prospects and make them aware of all the services and products you offer.</p>
1 - Target	
2 – Message	
3 – Media	
<b>Customers</b>	<p><b>The "Customers Phase"</b> is where you take people who have expressed interest and convert them into first-time buyers.</p>
4 – Leads	
5 – Nurturing	
6 – Conversion	
<b>Advocates</b>	<p><b>The "Advocates Phase"</b> is where you turn your customers into repeat purchasers and ultimately into referral sources.</p>
7 – Experience	
8 – Grow LTV	
9 – Referrals	

*"Remember, no one knows how good your products or services are until after the sale. Before they buy, they only know how good your marketing is. Put simply the best marketer wins every time. If you're serious about business success then now's the time to take decisive action. It's time to decide to become a great marketer and transform yourself from a business owner to a marketer who owns a business."*

**What is marketing really?** . . . . . Page 2

Marketing is the strategy you use to get people in your target market to know you, to like you and ultimately to trust you enough to become a customer and eventually an advocate. All the things you do to achieve those transitions are tactics. If you get your marketing plan down on one piece of paper, everyone will be able to see the big picture and work in.

**The Prospects Phase – Attracting the attention of prospects** . . . . . Pages 3 - 4

The Prospects Phase of your marketing plan is all about attracting prospects from your target markets. You do things which make people aware that you exist and that you have products and services which will help them achieve what they're trying to do.

**The Customers Phase – Converting prospects into first-time buyers** . . . . . Pages 5 - 6

The Customers Phase is where you take your pool of prospects and find ways to turn them into leads and then first-time buyers. You do things which give them confidence and you make attractive offers so they have compelling reasons to buy.

**The Advocates Phase – Turning customers into repeat buyers and fans** . . . . . Pages 7 - 8

The Advocates Phase is all about taking your one-time customers and converting them into repeat customers firstly and ultimately advocates for your business. If you can do this, you spark a virtuous cycle where customers keep introducing you to new customers again and again.
